

Physics & Astronomy Colloquium Schedule Fall 2007

NOTE: All colloquia will be held on THURSDAY at 3:40 PM in Rm. 109 Nicholson, unless otherwise indicated.

DATE	TITLE OF TALK	SPEAKER	SPEAKER'S INSTITUTION	HOST
Sept. 6	"Recent Results from the MiniBoone Experiment"	William Metcalf	LSU Physics & Astronomy	Juhan Frank
Sept. 13				
Sept. 20	"Towards Measuring Black Hole Spin" <u>Abstract</u>	Jon Miller	University of Michigan	Robert Hynes
Sept. 27	"Why is it Einstein? What Lesson Can We Draw" <u>Abstract</u>	John Rigden	Washington University-St. Louis	Arlo Landolt
Oct. 4	"Interference between Independent Photons and Quantum Entanglement in Atomic Systems" <u>Abstract</u>	Girish Agarwal	Oklahoma State University	Jonathan Dowling
Oct. 11	<i>Fall Holiday</i>			
Oct. 18	"Light Beams with a Twist" <u>Abstract</u>	Surenda Singh	University of Arkansas	Jonathan Dowling
Oct. 25	"TBA"	Ron Webbink	University of Illinois-Urbana-Champaign	Juhan Frank
Nov. 1	"The Demography of Massive Black Holes" <u>Abstract</u>	Scott Tremaine	Princeton University, Institute for Advanced Study	Luis Lehner
Nov. 8	"Is Spacetime an Emergent Phenomenon?" <u>Abstract</u>	Vijay Balasubramanian	University of Pennsylvania	Luis Lehner
Nov. 15	"High Energy Astrophysics with the Large Millimeter Telescope" <u>Abstract</u>	Alberto Carramiñana	Dept. of Astrophysics, INAOE, Tonantzintla, Mexico	Greg Stacy
Nov. 22	<i>Thanksgiving Holiday</i>			
Nov. 29	*CANCELLED*	Joerg Schmalian	Iowa State University, Ames Laboratory	Ilya Vekhter
Dec. 6	"Origin of Cosmic Rays"	James Matthews	LSU Physics & Astronomy	Juhan Frank
